

VESA Counter Stand - Fixed Height with Cable Management (P/N:MMF-STND02-04)

Setup Sheet

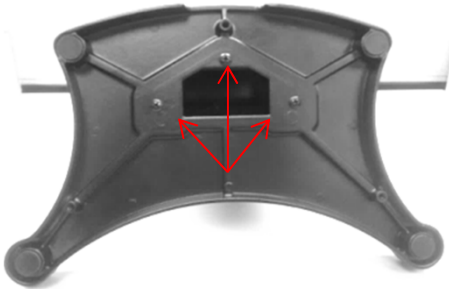

INCLUDED IN KIT:
 (Qty.1) Counter Stand **Base**
 (Qty.1) **Top portion** with VESA Plate
 (Qty.3) Screws

STEP 1

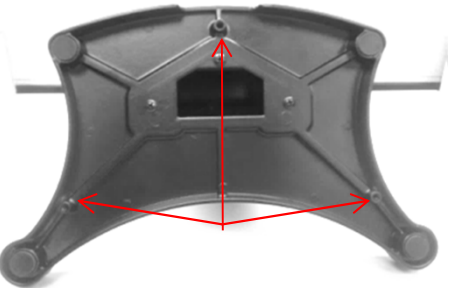

Unite the top portion with the base. Secure from the bottom using the three (3) screws provided in the locations shown below.

STEP 2

Place stand on top of flat surface as a free-standing solution or anchor onto a counter.

To anchor, bolt three (3) screws from the bottom of a flat counter surface.

SPECS

Base: Suitable for any 10"-22" LCD or All-In-One Monitors

Weight Capacity: 45 lbs

Overall Height : 9.05 inch high

Construction: ABS and sheet-nickel

Finish: UV Paint- Sandblast

Cable Management: Designed with opening for easy and convenient cable access and routing.

Color: Black

TOOLS AND HARDWARE REQUIRED

- Phillips Head Screwdriver
- Power drill to bolt stand to surface (if necessary).
- Hardware for mounting stand onto a flat surface are not included. Hardware will need to suit the specific desktop or platform thickness.

NOTE: Hardware is not included as it needs to suit the specific counter thickness .

STEP 3

Secure monitor to the stand. Use the custom screws provided by the monitor's manufacturer, located on the back of the device.

Align the back of the monitor to the corresponding 75/100mm VESA hole pattern and secure using the custom screws.

STEP 4

Cable Management

Guide cable connections throughout the cable management area opening.

STEP 5

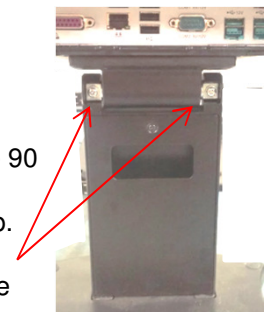

Ready to use

Position the viewing angle as desired.

Maintenance

Adjust tilting friction if it becomes loose:

- Flip the mounting plate 90 degrees so that the monitor is flat facing up.
- Tighten the two (2) side screws to desired torque
