

FOR IMMEDIATE RELEASE

MMF POS INTRODUCES NEW CASH DRAWER PLATFORMS

Wheeling, IL, October, 2015 – Now there's a way to organize and secure POS peripherals and related cables while supporting the brand promise and customer experience at checkout.

The new cash drawer platforms from MMF POS provide seamless cash drawer integration with secure POS peripheral placement and hidden cable management. VESA® compatible mounts and 2-line pole displays can be easily integrated, while hidden and protected cable management helps secure these assets and prevent tampering. Designed for easy reach and close proximity to touch screen terminals or tablet enclosures, they help cashiers and operators complete transactions with ease.

The skidproof design does not require installation by drilling into the cash drawer -- a major benefit. Left or right peripheral placement is simple as they were designed to accommodate most major brands. There are two platform models to choose from - one for the Advantage® 21"D cash drawer and another for the MediaPLUS® 20"D cash drawer. Each includes a Top Cover Plate Kit with four different slot cover configurations for secure mounting and discreet cable management.

“Retailers devote a lot of time and money creating a unique brand promise that extends to the customer experience at store level. Yet at checkout the customer experience often changes as customers see a mishmash of dusty, tangled cables, awkward peripheral placement and clutter that is hard to keep organized and clean. Our new platforms organize and protect critical POS peripherals and related cables while presenting a professional appearance that won't distract from the overall customer experience. It's easy to see their value”, said Anne Gray, Senior Product Manager, MMF POS.

This latest new product introduction comes on the heels of the PayVue™ Illuminated Cash Drawer debut at Retail NOW® 2015, the launch of Lockable Payment Terminal Stands with Basic, Dual or Triple Security, and a refresh of the popular VAL-u Line® branded Cash Drawers.
