

FOR IMMEDIATE RELEASE

PAYVUE ILLUMINATED CASH DRAWER NOMINATED FOR TWO PRESTIGIOUS INDUSTRY AWARDS

Wheeling, IL, JULY, 2016 -- The 2016 North American Office Products Awards (NAOPA) nominees have been named, and we are honored to announce that MMF POS' PayVue Illuminated Cash Drawer is a finalist for two awards.

The first nomination is for the **Best Product - Technology Products** award. This award is given for innovation, design, functionality and how the product improves currently available designs. Benefits to both resellers and consumers are also considered.

PayVue has also been nominated for NAOPA's **People's Choice** award, given to the product which receives the most number of votes. Anyone can vote for the product they think stands-out from the crowd. Information on how to **Vote for PayVue** is included below.

Winners will be announced at S.P. Richards' Advantage Business Conference (ABC) which is the largest annual event for North American dealers and attracts more than 3,000 attendees every year.

The all-new, patent-pending PayVue™ Illuminated Cash Drawer uses an energy-saving LED light source to clearly light the cash drawer for improved bill and coin identification and placement during transactions in low-light settings. Designed for restaurant, bar and nightclub use, PayVue improves transaction accuracy and speed, customer service, loss prevention management and low-light ambiance.

A recent case study at the Howard Street Inn, Niles, Illinois, confirmed PayVue's benefits, according to Ken Hoffman, it's Owner: "PayVue has made it easier to monitor cash operations. My staff likes it because it helps them see what they are taking in and giving back. This has resulted in fewer shortages, and ultimately higher profit. It's good for us all."

Howard Street Inn Manager Rebecca Ebert also commented on improved efficiencies and the positive impact PayVue has had on bar ambiance. "The drawer's balancing much better now. Closing's much faster too, which I really appreciate after a long day. PayVue's light makes it easier to see what you're doing. It enhances the bar's atmosphere too. The cash drawer's light fits right in with the overall image we worked hard to create."

Designed with integrated LED lighting, PayVue also features:

- Heavy-gauge steel construction
- Scratch and chip-resistant black housing

- A sleek stainless steel front
- Three media slots – with one dedicated to the integrated LockIt® secure cash drop compartment
- A five bill, five coin configuration
- 12V/24V for seamless integration with existing or new POS terminals or printers

There are three ways you cast your NAOPA People's Choice Award vote for PayVue.
